ABOUT ME

A freelancer and aspiring UI/UX Designer who spends time learning and investigating new ideas and knowledge. I enjoy creating wireframes and mock-ups of web systems and applications.

WORK EXPERIENCE

Freelance Researcher & Web Developer
April 2022 - Present

UpWork, Aroodai

- Designed an e-commerce website for a small clothing business using a website builder

- Reviewed and synthesized articles and other data needed for a client regarding Data Analytics, Machine Learning, Artificial Intelligence, and the Internet of Things (IoT)

- Maintained a website and uploaded new articles weekly

Legal Contracts & Management Intern
October - December 2021

Aboitiz Construction Inc.

- Developed a system using Google App Script and Google Forms that automates the contract signing saving time and resources

- Updated the system wherein all the forms from different departments are automated and organized in a single portal

- Designed Logos, stickers, and rebranding materials

EDUCATION & CERTIFICATIONS

- **Polytechnic University of the Philippines**
  Bachelor of Science in Computer Engineering

  2023

  Completed our Thesis Project entitled "Student Document Disinfection UV Sorting Machine"

- **Full Stack Web Development**
  KodeGo Bootcamp

  June - October 2022

  Expanded my knowledge and applied my skills by designing and developing websites and systems
